***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following amendment was made in the claims to correct for what appears to be an editorial error that resulted in essential claim language that is missing.

In claim 37, on line 13, before the word "detectable", inserted:

This application is in condition for allowance except for the presence of claims 26 and 33-36 drawn to distinct inventions non-elected without traverse. Accordingly, claims 26 and 33-36 have been cancelled.

***Examiner's Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Referring to claims 1-25, 27-32, and 37, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, superimposing onto source data an encoded forensic marking containing an information marker and a checksum marker to create forensically marked output data and printing the output data to produce a forensically marked image, the forensic marking being detectable by electronic scanning but undetectable to the human eye.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The information disclosure statement (IDS) submitted on 6 December 2004, has been considered by the examiner, including the Office Action from Tiwan.
